

MEDIA RELEASE – For Immediate Release

Prairie Sky Chamber of Commerce Receives Funding for Training & Employment Network

December 22, 2020

Warman/Martensville, SK Region – In response to the COVID-19 pandemic, the Saskatchewan Chamber of Commerce has developed the Training & Employment Network (TEN) to provide support to communities and companies to integrate Indigenous, immigrant, youth and women workers into the local workforce.

The TEN is funded through Western Economic Diversification (WED) and administered by the Saskatchewan Chamber of Commerce. Through the TEN, the Prairie Sky Chamber of Commerce will receive up to \$10,000 in funding to develop and implement a Community Action Plan that identifies gaps in regional labour markets and create opportunities for employers and workers. The intent of the TEN is to provide clear and locally coordinated pathways for workers to be identified, as well as to present learning opportunities to enhance skills using a combination of existing and new training for employers.

“The Training & Employment Network (TEN) will not only open doors to opportunities for people of all ages and backgrounds, but it will also help us strengthen our economic region. We are so grateful to Western Economic Diversification and the Saskatchewan Chamber for support in bringing this program to the Warman and Martensville region.” Said Jaimie Malmgren, Executive Director of the Prairie Sky Chamber of Commerce.

In addition to the Prairie Sky Chamber of Commerce, other chambers participating in the TEN include Battlefords, Estevan, Humboldt, Kindersley, Lloydminster, Moose Jaw, Nipawin, Prince Albert, Swift Current, Weyburn, and Yorkton.

As part of the TEN, a Training & Employment Network Directory can be found on the Saskatchewan Chamber of Commerce [Training and Employment Network webpage](#).

Visit the Saskatchewan Chamber of Commerce [website](#) for more information.

The Prairie Sky Chamber of Commerce is “the voice of business” in the Warman, Martensville & surrounding area. We represent businesses spanning a variety of industries, specialties, and interests. With over 200 members, our Chamber membership includes the community’s biggest employers, small and medium size businesses as well as home-based entrepreneurs, and more. Our strength is in our numbers, our ability to achieve is in our numbers, and the catalyst of our success is in the innovativeness and creativity of our members.
